We have been/are working in collaboration with best Steel and Cement manufacturing companies in India. The companies have appreciated our efforts in promotion and sales of their products.

Awards and Achievements

Last year we were awarded the "Best Dealer Of The Year Award" by Tata for our outstanding work Tata Tiscon Fe500d Tmt sales.

They appreciated our efforts in Customer Management, Customer Service and Sales of their products.

PRODUCTS

Tata Tiscon

Tata TISCON is a premium rebar brand from Tata Steel, the largest steel company in the Indian private sector, & 6th largest in the world. It holds the laurel of being the first Thermo Mechanically Treated (TMT)

rebar in the country. Ever since its inception in year 2000, Tata TISCON has been shaping up the chaotic market of rebar commodity in India with its numerous

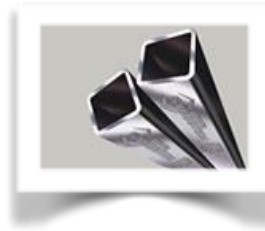

initiatives

Tata Structura

With high torsional rigidity and compressive strength, these hollow sections are comparably more efficient than conventional steel sections. The excellent distribution of material around the axis of the square and rectangular steel hollow sections allows for remarkable strength qualities and thus offers decisive advantages in its applications. The smooth and uniform profile of the sections minimizes corrosion and facilitates easy, onsite fabrication to significantly enhance the aesthetics of structures. A higher strength to weight ratio credits these sections with nearly 20%

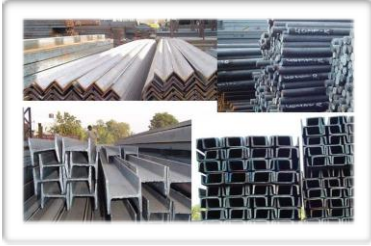

reduction in the use of steel.

Cement

We have been working with some of the best brands in the Cement industry. Contact us to know more.

Structural Steel

Angles, Channels, I beams, Ms Plates etc for Industrial and home use from Prime as well as Secondary manufacturers.

Introducing Cut Length Tata Tiscon Tmt bars.
